Meals: Daily continental breakfasts, all day beverages & an afternoon snack served each day. Lunch is on your own.

Basic Appraisal Principles

If you are considering a career in professional valuation services, your journey should begin with *Basic Appraisal Principles*. This four-day course will introduce you to real property concepts and characteristics, legal considerations, influences on real estate values, types of value, economic principles, real estate markets and analysis, highest and best use, and ethical considerations. The course will provide a solid foundation in basic appraisal principles no matter what appraisal specialty you pursue. By successfully completing the course and exam, you will have met most states' education requirements in the content area identified as basic appraisal principles.

Course Prerequisite

- None

Basic Appraisal Procedures

In this four-day course, you will apply the principles and concepts you learned in *Basic Appraisal Principles*. The course will take you step-by-step through the valuation process including defining the problem, collecting and analyzing data, reaching a final opinion of value and communicating the appraisal. You will learn about the three approaches to reaching an opinion of value—income capitalization, cost, and sales comparison—and apply them in true-to-life case studies and problems. After examining income capitalization methods and formulas, you will learn how rates and multipliers are derived. Through case studies you will discover the steps and concepts involved in the cost approach—how appraisers estimate the cost of constructing a reproduction of or replacement for an existing structure; the three major components of depreciation and methods for estimating and allocating depreciation; and land and site valuation. The course will guide you through the sales comparison approach including researching the market, verifying information, selecting units of comparison, conducting a comparative analysis, making adjustments, and reconciliation. You also will complete key sections of an appraisal report. In addition, the course provides an introduction to property description and construction and design basics. By successfully completing the course and exam you will have met most states' education requirements for content identified as basic appraisal procedures.

Required Equipment

- HP12C calculator
- You must be familiar with calculator operation when the course begins. Answers to problems in course material are shown using the HP12C. Do not come to class expecting to be taught how to use a financial calculator.
- Free Review—[Using a Financial Calculator: Symbols and Formulas, Capitalization Selection Tree, and Sample Problems](#); and [Financial Calculator Practice Exercises](#)

- For additional help with the HP12C calculator, take our online seminar, [Using Your HP12C Financial Calculator](#).

Course Prerequisite

- Basic Appraisal Principles

Students must sign a waiver at the beginning of the course stating that they have the prerequisites. If they do not, they will not hold the Appraisal Institute responsible and will not expect to receive special attention during the course.

National Uniform Standards of Professional Practice (USPAP) – 2018/2019

Using the National USPAP Course material developed by the sponsoring organizations of The Appraisal Foundation, this two-day course covers basic rules for ethical behavior and competent performance. The course is designed to comply with USPAP requirements for state certified appraisers and it highlights the role of the appraiser and the implied impartiality often associated with this role. Participants will learn how requirements of the *Uniform Standards of Professional Appraisal Practice* affect their appraisal businesses.

NOTE: The appraiser can take the 15-hour USPAP course, but it will only count for hours toward his or her state's continuing education renewal requirement; the 15-hour program will not meet the USPAP continuing education requirement.

Course price does not include a copy of the 2018-2019 USPAP book, which is required for course credit. Attendees must bring their own copy of the 2018-2019 USPAP book to class. To order an approved electronic or printed copy of USPAP from The Appraisal Foundation, follow this link: <http://www.appraisalfoundation.org>. The USPAP document will not be available for purchase onsite or from the Atlanta Area Chapter Appraisal Institute.

Course Prerequisite

Recommended: *Basic Appraisal Principles* or other methodology courses

Residential Report Writing & Case Studies

Residential Report Writing & Case Studies meets current and future AQB criteria by engaging appraisers in practical writing exercises necessary to produce convincing appraisal reports in daily practice. Course objectives are achieved through the discussion and application of residential valuation procedures, grammar rules and writing techniques, and specific writing assignments based on a residential case study. Participants will practice writing effective narrative comments for form appraisal reports and learn how to explain valuation procedures and conclusions to users of reports. The techniques applied in this course are useful in real-life situations that complicate routine assignments.

This course is approved for the following Georgia appraiser classifications: Registered, Licensed, and Certified Residential.

Course Prerequisites

- Basic Appraisal Principles
- Basic Appraisal Procedures
- Or equivalent courses

Appraiser Qualification Hours & Attendance Policy

Full attendance for all 4 courses and successful completion of the corresponding examinations qualifies students for 90 Appraisal Institute and Georgia Real Estate Appraiser Board credit hours. **100% attendance is required** for all Appraisal Institute education programs. Students should not be late or leave early; if they are late or leave early, they will not receive credit. **The Georgia Real Estate Appraisers Board requires 100% attendance and a passing grade on the exams (75%). Partial credit is not awarded.** [CLICK HERE](#) to learn more about other state approvals.
