Day 2

Instruction, 8:30 a.m. - 4:00 p.m.

Exam, 4:00 p.m.-5:00 p.m.

BASIC APPRAISAL PRINCIPLES

If you are considering a career in professional valuation services, your journey should begin with *Basic Appraisal Principles*. This 30-hour course will introduce you to real property concepts and characteristics, legal considerations, influences on real estate values, types of value, economic principles, market area analysis, highest and best use, and ethical considerations. The course should provide a solid foundation in basic appraisal principles no matter what appraisal specialty you pursue. By successfully completing the course and exam, you will have met most states' education requirements in the content area identified as basic appraisal principles.

Course Prerequisite

- None

BASIC APPRAISAL PROCEDURES

Apply the principles and concepts learned in *Basic Appraisal Principles*. This 30-hour course takes you step-by-step through the valuation process:

- Defining the problem
- Collecting and analyzing data
- Reaching a final opinion of value
- Communicating the appraisal

Learn about the three approaches to reaching an opinion of value (income capitalization, cost, and sales comparison) and apply them in true-to-life case studies and problems. After examining income capitalization methods and formulas, discover how rates and multipliers are derived. Through case studies, apply the steps and concepts of the cost approach, i.e., how appraisers estimate the cost of constructing a reproduction of or replacement for an existing structure; the three major components of depreciation; methods for estimating and allocating depreciation; and land and site valuation.

The course will guide you through the sales comparison approach, including researching the market, verifying information, selecting units of comparison, conducting a comparative analysis, making adjustments, and reconciling conclusions. The material also covers the general types of appraisal reports. Finally, the course introduces property description plus the basics of construction and design.

Course Prerequisite

- Basic Appraisal Principles

15-HOUR NATIONAL UNIFORM STANDARDS OF PROFESSIONAL PRACTICE (USPAP) – 2020/2021

Using the national USPAP course material copyrighted by The Appraisal Foundation, this two-day course covers basic rules for ethical behavior and competent performance. The course, which is designed to comply with

USPAP requirements for state licensed or certified appraisers, highlights the role of the appraiser and the implied impartiality often associated with this role. Participants will learn how requirements of the *Uniform Standards of Professional Appraisal Practice* affect their appraisal businesses.

Note. State licensed and certified course participants who wish to complete the *15-Hour National USPAP Course* may do so, but it will only count for state CE (elective) credit and will not meet the National USPAP requirement for state licensing retention.

Course price does not include a copy of the 2020-2021 USPAP book, which is required for course credit.

Attendees must bring their own copy of the 2020-2021 USPAP book to class. To order an approved electronic or printed copy of USPAP from The Appraisal Foundation, follow this link: appraisalfoundation.org. The USPAP document will not be available for purchase onsite or from the Atlanta Area Chapter Appraisal Institute.

Course Prerequisite

Strongly Recommended: *Basic Appraisal Principles* and *Basic Appraisal Procedures*

Equipment (USPAP Course)

A laptop computer or tablet device is required for participants who choose an electronic copy of USPAP.

RESIDENTIAL REPORT WRITING & CASE STUDIES

Residential Report Writing and Case Studies engages appraisers in practical writing exercises necessary to produce convincing appraisal reports in daily practice. Course objectives are achieved through the discussion and application of residential valuation procedures, grammar rules and writing techniques, and specific writing assignments based on a residential case study. Participants will practice writing effective narrative comments for form appraisal reports and learn how to explain valuation procedures and conclusions to users of reports. The techniques applied in this course are useful in real-life situations that complicate routine assignments.

This course is required for the following Georgia appraiser classifications: Registered, Trainee, Licensed, and Certified Residential.

Course Prerequisites *

- Basic Appraisal Principles
- Basic Appraisal Procedures
- 15-Hour National Uniform Standards of Professional Appraisal Practice (USPAP)
- Or equivalent courses

**Please note these are Georgia specific requirements; other states may have other prerequisites.*

Appraiser Qualification Hours & Attendance Policy

Full attendance for all 4 courses and successful completion of the corresponding examinations qualifies students for 90 Appraisal Institute and Georgia Real Estate Appraiser Board credit hours. 100% attendance is required for all Appraisal Institute education programs. Students should not be late or leave early; if they are late or leave early, they will not receive credit. The Georgia Real Estate Appraisers Board requires 100% attendance and a passing grade on the exams (75%). Partial credit is not awarded.
